PRODUCT DESCRIPTION

The **SAPslim Cubicle System** is our newest entry-level cubicle/divider product line. This versatile cubicle divider panel system was designed with affordability and practicality in mind. Its lightweight and modular construction makes it easy to assemble quickly in nearly any work environment.

Pictured here is a popular U-Shaped call center set up for two people. All panels are covered by our Sea Salt laminate with worksurfaces in White laminate. Consider this a basic "starter" configuration for a call center... you can easily order additional cubicles to expand or deduct as needed.

Nearly any part of the configuration you see pictured here can be added to, modified, or re-imagined. The Sea Salt laminate panels can be replaced with frosted polycarbonate or multiple colored fabric surfaces. Pedestal cabinets can be added to each cubicle if needed as well.
