PRODUCT DESCRIPTION

The **SAPslim Cubicle System** is extremely versatile. With it, you can create intricate cubicle configurations or, in this case, simple divider walls to define and separate work spaces where none existed prior. The importance of divider walls between employees contributes to a safer, properly socially distanced office. The SAPslim walls are lightweight and covered in non-porous laminates which are easy to clean and disinfect regularly.

This is a freestanding arrangement, but locking caster wheels can be added to the base if you need to make it mobile and easily movable.

And don't forget, the panels can be the pictured laminate or choose from multiple fabric surfaces, frosted polycarbonate or clear acrylic.
