

ELECTRIC SIT-STAND DESK CONVERTER

\$334.13

Avoid the hassle of replacing your entire desk to get the benefits of an ergonomic standing desk. This sit stand desk converter turns any desk into a health promoting, productivity increasing workstation. Just place the pre-assembled sit-stand converter on top of your desk, plug-in for power, and press the button on the side to adjust to your desired height! The table top is large enough to hold two medium-sized monitors, and the keyboard tray has plenty of room for a large keyboard and mouse.

Features

Too often people are experiencing neck and shoulder pain from sitting at their desk for long periods of time without moving around or standing. This can cause your health to deteriorate, leaving you feeling groggy and uncomfortable. Using a sit stand desk will help to improve the circulation in your body, leaving you more alert, productive, and happy! This adjustable standing desk is simple to use - simply press the button on the side of the desk and the electric motor will raise the workstation to your desired height. This desk converter has plenty of space for you to fit up to a couple of monitors and desk accessories. Open up the box and enjoy this sit stand desk right away!
