

TABLETOP POWER AND CHARGING HUB | SKUTCHI DESIGNS

The new Drifter is a unique power and charging hub which offers users additional opportunity to stay connected to their devices continuously throughout the day. The Drifter's portable design allows it to be easily repositioned from one area to the next, making it ideal for an array of spaces spanning office, education, hospitality, and healthcare environments. Designed with function in mind, the Drifter allows for easy connection to one Tamper Resistant receptacle and two active USB charging ports on all three sides of the unit. Dependable metal construction provides comfort in knowing the Drifter can endure even the most demanding conditions. Comes standard with a 108" cord. The Drifter is ETL Listed.

SKU: DRI
