

GETAWAY PORTABLE COLLABORATIVE MEETING TECHNOLOGY SOLUTION

Getaway is a portable, easy-to-use technology solution that can easily convert any space into a collaborative meeting area. A combination of tamper resistant receptacles and USB charging ports keep your favorite devices charged, even while in use. High definition HDMI audio visual components are packaged neatly inside the unit, and allow for up to 4 users to share ideas on one screen with the simple push of a "Show Me" button. Getaway's portable design offers a reduction in both technology and furniture costs by sharing the unit among multiple meeting areas spanning any furniture line. It's easy plug-and-play setup adapts the unit to both formal and informal spaces making the Getaway perfect for new and retrofit applications. Optional mounting bracket accessory and portable carry case included. Comes standard with 108" cord and 15' HDMI out cable. Getaway is ETL Listed.
