

RUNABOUT POWER MODULE

The Runabout offers convenience, versatility and flexibility encompassed within its minimal footprint. The ergonomic 360 degree design allows multiple user access on the work surface and is a portable companion for the mobile workers. Its portability and diverse power integration meets the varied needs of today's technology-driven worker. Both practical and powerful, it provides instant access to six 2.1A USB ports and three AC spill-resistant receptacles in a single device. The Runabout brings innovative technology to the table--literally.

SKU: RUN-3-6U
