PRODUCT DESCRIPTION

Why Buy Our Demountable Partitions?

Using the **Sapphire Wall System** allows us to create nearly any configuration of demountable partitions you can imagine. Regardless of the room size, demountable partitions can be built to a variety of shapes and sizes. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

It usually takes less than a day to assemble (depending on the size of the project). Additionally, you can customize the panels of our glass office walls in a variety of ways. For example, choose all glass panels or mix in laminates and fabric panels for a unique look.

The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction-- which can take weeks of construction and downtime.

What Comes With This Product?

The demountable partition configuration pictured above is an 18'4"W x 18'5"D x 95"H workspace and is priced with two acrylic sliding doors. However, we have traditional swing doors available if you're looking to upgrade. The panels are White laminate with support wings in the middle. Quarter-round worksurfaces can be added to the wings to create a shelf for extra storage or décor.

Additionally, we offer built-in "raceways" along the bottom of our walls to provide hidden electrical and data network management. Just as important, you can change or replace panels instead of the entire wall. In short, our freestanding cubicles are customized to suit almost any business or office. If your business needs to relocate, then take them with you to your new location and reconfigure as needed.

This conference room could easily fit up to a 12-foot conference table (such as a [Harmony Conference Series](#) table) available only from *SKUTCHI Designs Inc.*

What Else?

These demountable partitions are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
