PRODUCT DESCRIPTION

Why Buy Our Glass Office Partitions?

The **Sapphire Wall System** features glass office partitions, built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our glass office partitions are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize our glass office partitions in a variety of ways; choose all glass panes or mix in

multi-colored laminates and fabric panels. The base of each panel features inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

The glass office partitions configuration pictured creates a space 12'3"W x 12'5"D x 84"H. It can be used for many purposes such as a breakroom, waiting area, conference room, etc. This space could easily fit up to a 12-foot conference table (such as a [Harmony Conference Series](#) table) available only from *SKUTCHI Designs Inc.*

It's pictured here with an acrylic sliding door, however, we have traditional swing doors available if you're looking to upgrade. The panels are primarily tempered glass with a base row of Charcoal fabric panels around the bottom.

Again, you can customize the panels to suit your purpose. Just let us know when you order.

What Else?

The glass office partitions made with our **Sapphire Wall System** are fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
