## PRODUCT DESCRIPTION

## Why Buy Our Office Cubicle Divider Panels?

The **Sapphire Wall System** features office cubicle divider panels built to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, our office cubicle divider panels are a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize our office cubicle divider panels in a variety of ways; choose all glass panes or mix in multi-colored laminates and fabric panels. You can also upgrade the base of each panel to include inline data and electrical "raceways" to manage cord and cables. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

## What Comes With This Product?

This typical has an overall dimension of 16'6″W x 5'5″D x 8'H which creates two 8' x 5' enclosed workspaces.  Also, each room has its own entry to which you can add a locking swing door or sliding acrylic panel. And, the **Sapphire Wall System** features dozens of fabric colors and laminates for the panels for you to choose from. Pictured here is an office cubicle divider panel in all White laminate.

## What Else?

Finally, this arrangement of our **Sapphire Wall System** is fully compatible with any items available in our **Sapphire Cubicle System**, which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails.
