PRODUCT DESCRIPTION

Why Buy Our Room Divider with Sliding Acrylic Door?

The **Sapphire Wall System** features this room divider with a sliding acrylic door, which can be modified to a variety of shapes, sizes, and panel colors. This highly versatile panel system--with heights ranging over 7', 8' or 9'ft--is completely freestanding with no permanent attachments to your floor or ceiling.

In other words, this room divider with a sliding acrylic door is a breeze to set up or take down. It usually takes less than a day to assemble (depending on the size of the project).

You can also customize the panels of our room divider with a sliding acrylic door in a variety of ways; choose all glass or mix in laminates and fabric panels. The **Sapphire Wall System** is a beautiful, modular wall alternative to traditional drywall construction--which can take weeks of construction and downtime.

What Comes With This Product?

Pictured here is a 10' long partition wall with floor to ceiling glass, laminate, and fabric panes. This typical is ideal when you need to separate two sides of a room or hallway. All of the modular panels you see here can be changed to suit your needs, however. Choose different colored fabrics or laminates to match your office's motif or corporate brand.

This wall is recommended for ceiling clearances of 7' and higher.

What Else?

The room divider with sliding acrylic door, made with our **Sapphire Wall System**, is fully compatible with any items available in our [Sapphire Cubicle System](#), which includes workstations, furniture, and accessories such as file storage, shelving, overhead storage, desks, chairs, and padded benches, paper racks, and accessory rails. Give us a call to customize yours today!
