

## **ERGOCENTRIC BARIATRIC GUEST CHAIR**

ergoCentric Bariatric Guest Chairs are highly durable. Made with high quality materials and superior construction; the chairs provide cushioned comfort for guests requiring a larger seat. Ideal for offices and waiting areas that require comfortable seating, the Bariatric Guest Series offers three sizes to accommodate larger body types as well as room configuration requirements. The Chair's robust design allows for a weight capacity up to 750 lbs., ensuring the chair can sustain heavier loads over time. The dual curve backrest and dual curve waterfall seat offer added comfort
