

UNDER DESK ERGONOMIC FOOTREST

\$58.25

Be sure that you are working comfortably with the help of our ergonomic footrest! Keep your feet and legs slightly elevated off the floor for better posture and less strain. This foot rest is designed for use under a desk or table, and the low-profile unit takes up minimal space so that you can easily store it and keep your work area clutter-free.

There are three tilt settings for you to adjust to your leg length. Tilt setting goes from 0 to 15 degrees. The large, non-skid surface keeps your feet from slipping off the foot rest while you're comfortably sitting at your desk during the workday. The foot rest features round surface bumps so that you can maintain proper circulation in your legs throughout the day. The uneven surface creates a massaging effect on the soles of feet. To experience this, simply move your feet in any direction over the bumpy surface.

Lead Time: 2 days
