

## HEIGHT ADJUSTABLE STANDING DESK SIT-STAND DESK CONVERTER

**\$245.03**

This sit-stand desk converter will change the way you work! Simply place this desk converter on top of your existing desk, and enjoy working comfortably from either a sitting or standing position. Adjusting the desktop is simple, and can be done in a matter of seconds. Just squeeze the side handles and the gas spring mechanism will help raise or lower the desk with ease. The tabletop is very spacious, allowing you to use two large monitors and other devices such as laptops or tablets. Simply place this workstation on top of your current desk, attach the keyboard tray and feel the difference as you work through your day.

Lead Time: 2 Days

### Features

This sit-stand desk suits a variety of needs and heights. Adjust the table down from 6.25 while you sit, and raise it up to 17 inches to stand. The desktop measures at 35 inches wide, and provides plenty of space for multiple monitors, a laptop, or even a tablet. The slot on the front of the desk can be used to prop up a phone or tablet for easier viewing. The second tier keyboard tray is

spacious as well, and leaves plenty of room for a full size keyboard and mouse. Ergonomic posture is important to prevent eye strain, neck and back pain. Monitors and keyboards should be raised to an ergonomic height to attain healthy posture while working. Standing during your workday will increase your energy, alertness, and productivity, and this height adjustable desk riser can help you achieve that.
