ESCAPE SERIES 3-PIECE ELEPHANT ACOUSTIC WALL ART | RAISED DESIGN | 77"W X 47"H

$532.31

- Design: Elephant and trees 3-piece
- Size: 77"W X 47"H
- Elephant and trees outline, pictured in sesame black.
- Frame around the back of the panel helps off-set the panel from the wall, makes mounting easier, and highlights the design.
- Excellent acoustical qualities. 1/2″ thick PET material, 0.75 NRC rating.
- Made from recycled plastic bottles, and is 100% recyclable.
- No harmful emissions
- Water resistant

- Easy installation. Can be mounted on the wall using hot glue, trim nails, Z clips, or double-sided tape.
- NOTE: Due to manufacturing process, one side may be rougher than the other
- Panel Thickness: 12mm (1/2 inch)
- Custom Designs Available

SKU: WA-ELEPHANT-3PC-PET-47H-77W

PRODUCT DESCRIPTION

Our eSCAPE line of wall mounted acoustic panels are made in the USA!

Fewer distractions at work means increased productivity throughout the day. This eSCAPE Acoustical Products line shows a custom designed, three (3) panel depiction of an elephant. Not only are wall panels a creative way to visually enhance the workspace, but also effective at reducing annoying office noises.

What Is PET Made From?

PET (Polyethylene Terephthalate) is a soft, felt-like material made with **100% recycled plastics** such as soda or water bottles plastics. Instead of ending up in landfills or oceans, the plastics in these products are remade into colorful, 1/2" thick panels. Those panels are then cut into custom shapes and sizes to be used to reduce noise pollution and annoying noises in the office.

The sound absorbing material in our wall mounted acoustic panels is extremely effective in reducing ambient noise! It has a NRC (Noise Reduction Coefficient) rating of .75 or about 75% of high decibel noise.

Safety

PET material has no harmful emissions, has no scent, nor is it flammable. In fact, the ASTM gives it a fireproof rating of E-84 CLASS A; the safest rating wall mounted acoustic panels can have. Not only are they durable, but easy to clean as well.

How Do I Hang Them?

Because of their light weight, these wall-mounted acoustic panels are easy to hang! They can be mounted numerous ways, including hot glue, finishing nail brads, Z clips, or double-sided tape. Additionally, we offer an optional mounting bar which can be attached to the panels and used to secure them to the walls or suspend them from a ceiling.
