

# SAPPHIRE CUBICLE SYSTEM

## Installation Guide

39"H, 52"H and 65'H

## Tools Needed for Installation

(Professional Assembly  
Recommended)

Drill Bits

1/4 Driver

Clamp

Mallet

Screw Gun

Allen Keys

Chop Saw

Level

Pry Bar

Double-Sided Tape

### Quick Tips

1. Unpack all product before assembly
2. 3 person installation
3. Make sure all panels are level
4. Frame entire office before installing tiles. **\*MAKE SURE TO INSTALL END CAP BEFORE INSTALLING TILES**
5. Professional installation recommended.
6. \*\*If your floor plan does not fit exactly with our sizes we suggest the following: A contractor may be hired to build out wall to meet measurements. This is called a knee wall and very common in the industry when odd measurements are left. This will make a finished look.

## Identifying Parts

1/2" Hex Bolts- for connectors

1" Hex Bolts- for panel to panel connectors

End Trim

Light Blockers  
Small/Large

### Connectors

4 Way Connector

3 Way Connector

2 Way Connector

Straight Panel to  
Panel Connector

120 Degree 2  
Way Connector

45 Degree 2 Way  
Connector

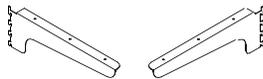

120 Degree 3  
Way Connector

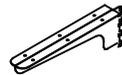

### Support

Corner Worksurface  
Support

Right/Left Cantilver

Double Cantilver

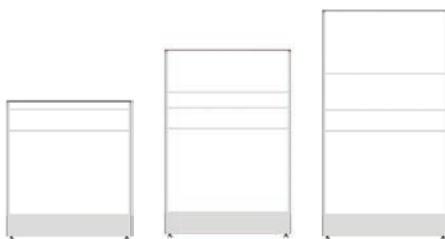

Flat Bracket

Transaction Support/  
Counter Top Bracket  
(Set of 4)

### Panel Frames

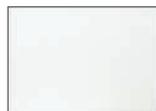

39"H

52"H

65"H

### Tiles

Materials Vary

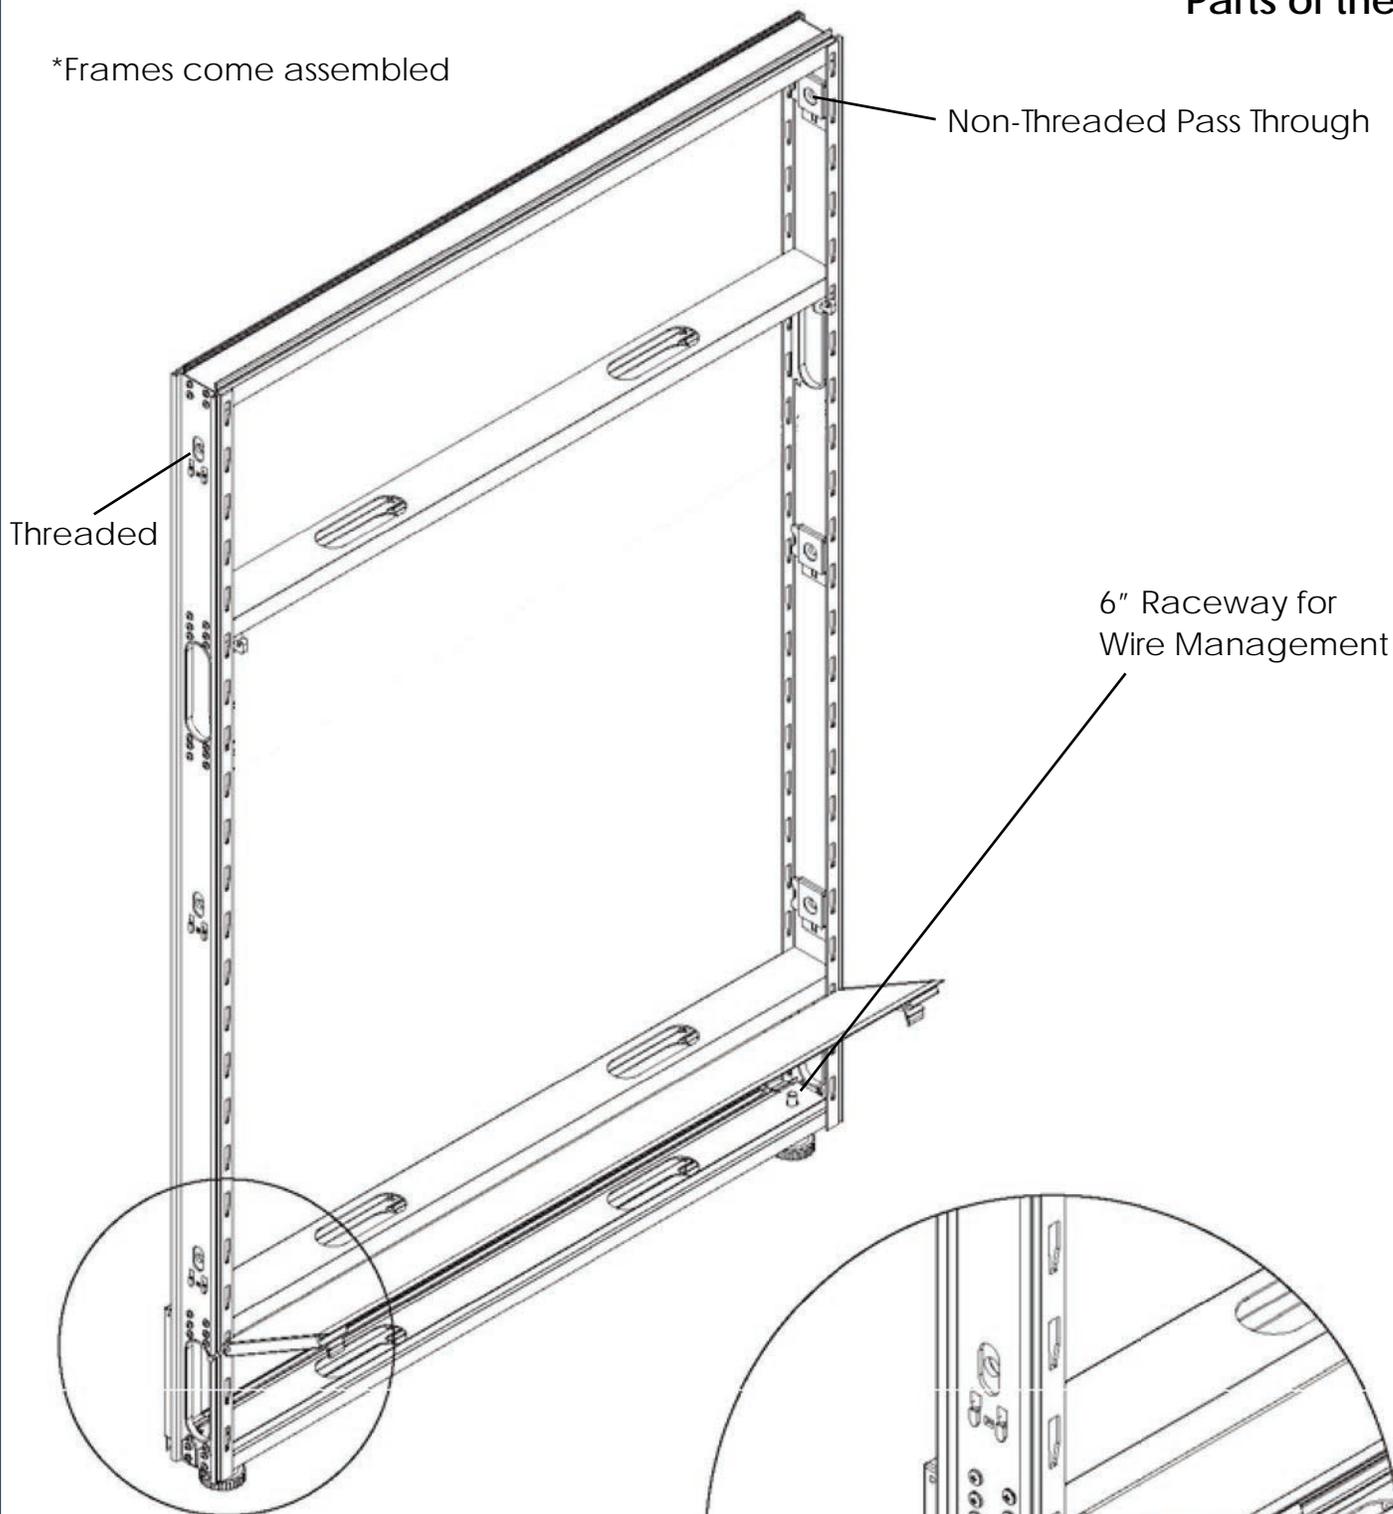

### Glass Options

Panel Topper/Stacker

## Parts of the Frame

\*Frames come assembled

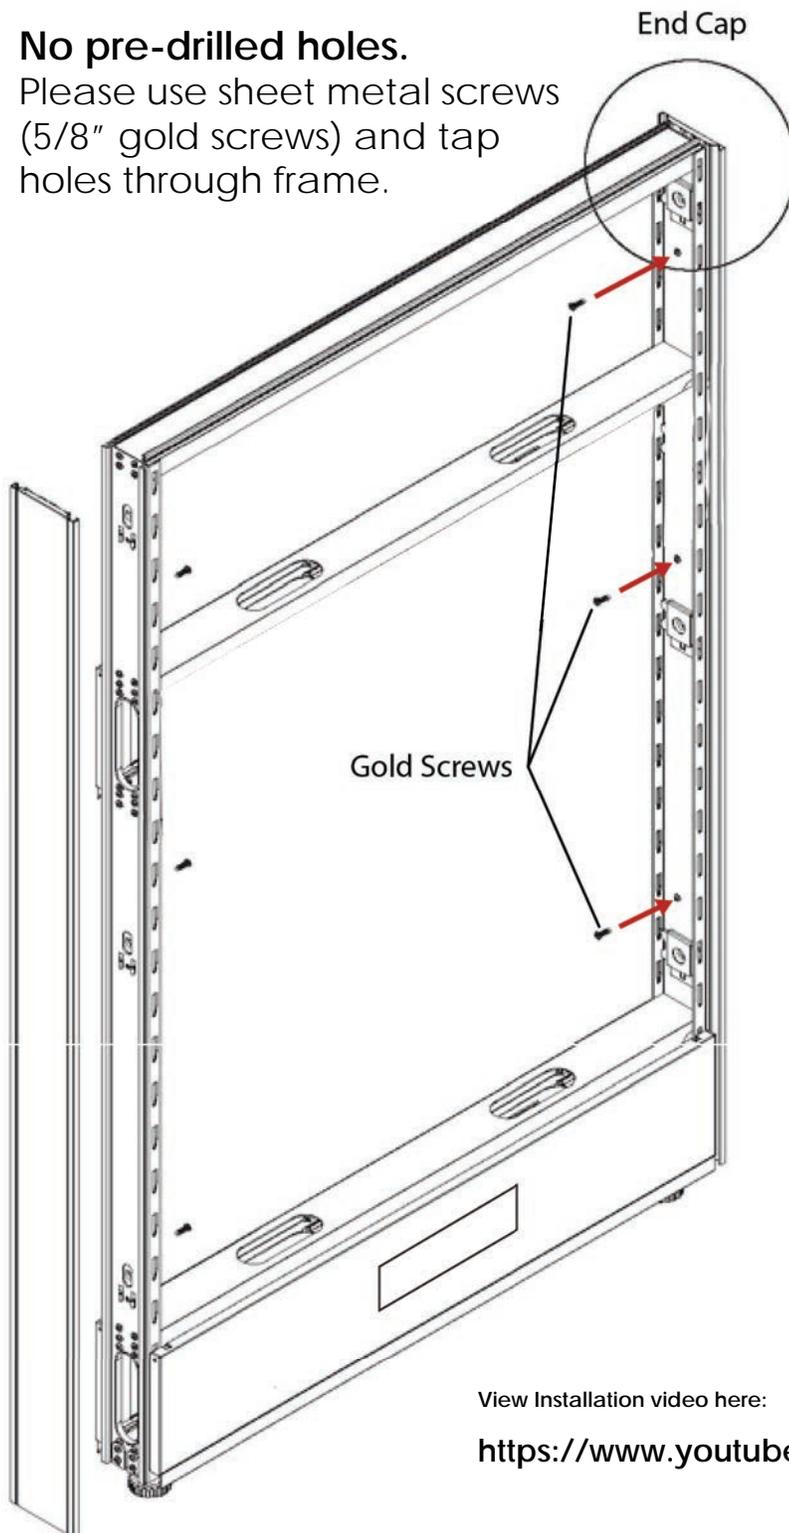

\*If installing panels directly to a wall view instructional video here.

<https://youtu.be/FJlyziYUH6w>

# \*MAKE SURE TO INSTALL END CAP BEFORE INSTALLING TILES

**No pre-drilled holes.**  
Please use sheet metal screws  
(5/8" gold screws) and tap  
holes through frame.

## Reception Transaction Top Assembly

The panel top caps are attached to the transaction tops.

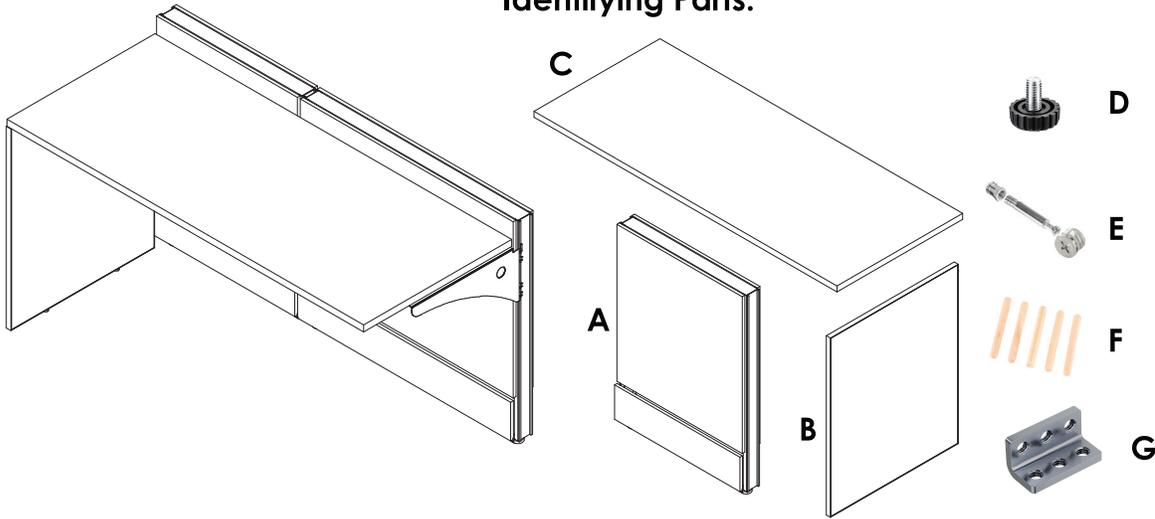

1. Snap the top cap/transaction top to the panel
2. Screw in the L Brackets as shown

Transaction Top  
Cantilevers  
(L-Brackets)

### Identifying Parts:

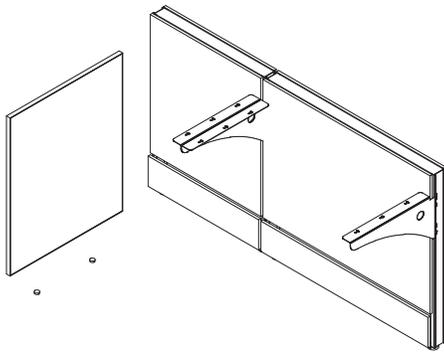

### Key:

- A=** Panel
- B=** Leg Support
- C=** Top
- D=** Feet
- E=** Cam Lock
- F=** Dowel
- G=** L-Bracket

\*Parts are connected using cam locks and wooden dowels. The amount of cam locks and wooden dowels will vary based on planter size.

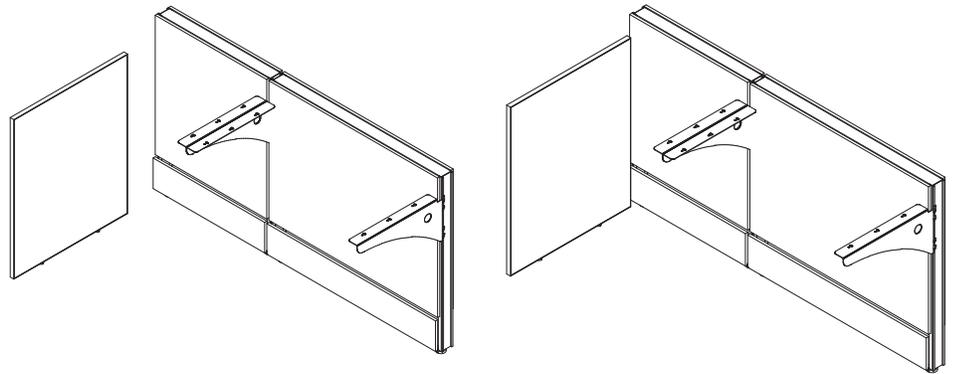

### Step 1:

Add Feet to Large Side Wall B

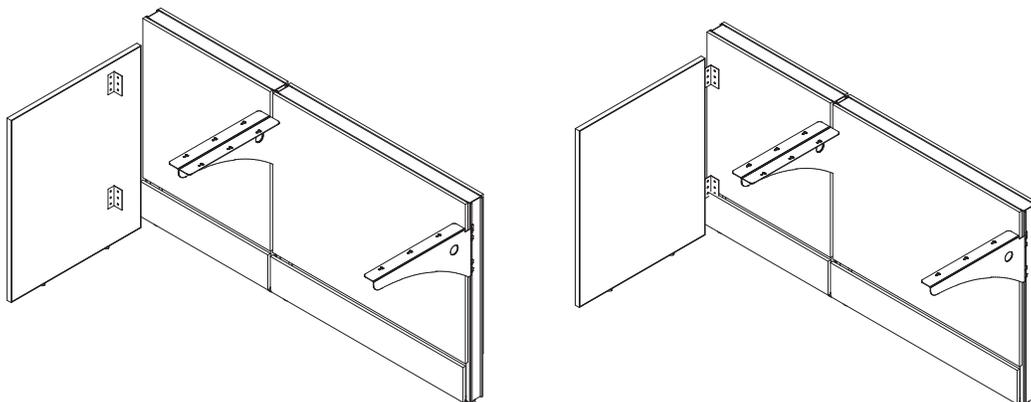

### Step 2:

Line up Leg Support to existing Emerald System panel

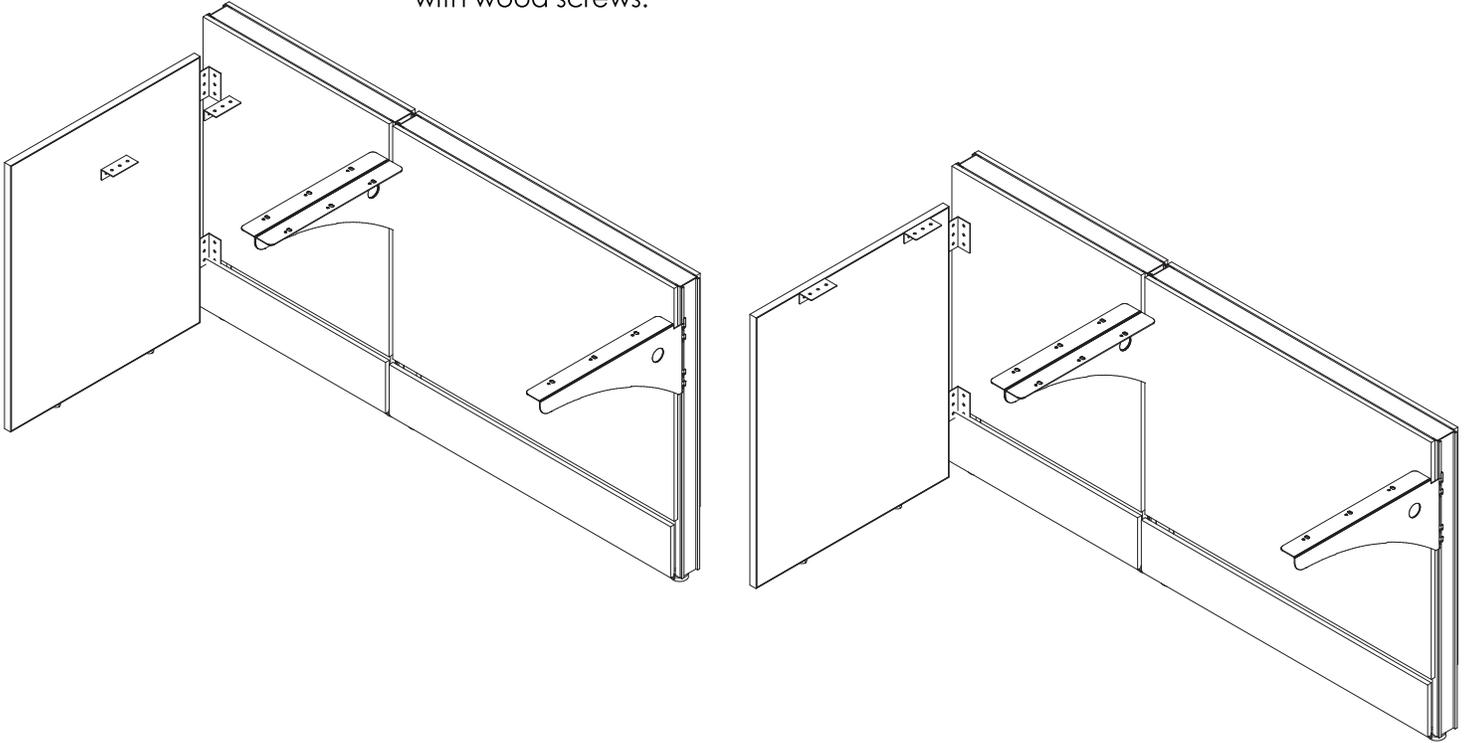

### Step 3:

Using L- bracket, connect leg to existing Emeralds System with wood screws.

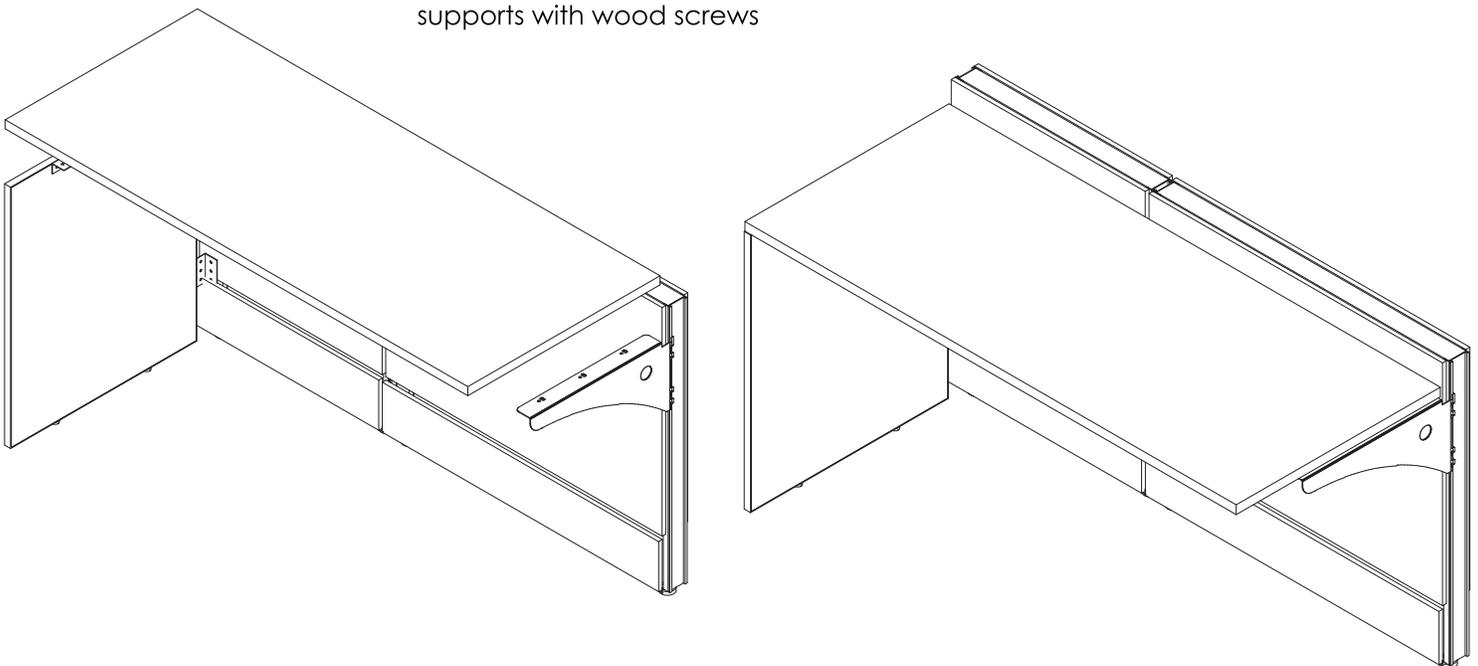

### Step 3:

Using L- bracket, connect leg to existing Emeralds System with wood screws.

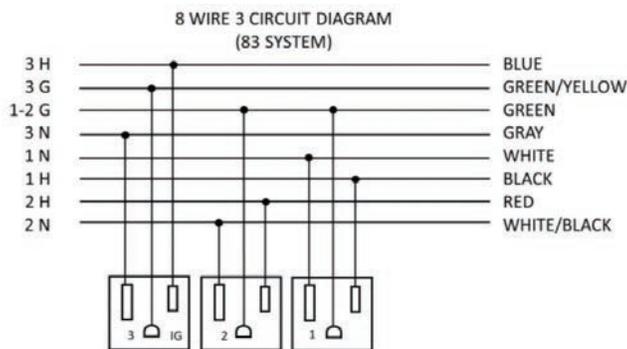

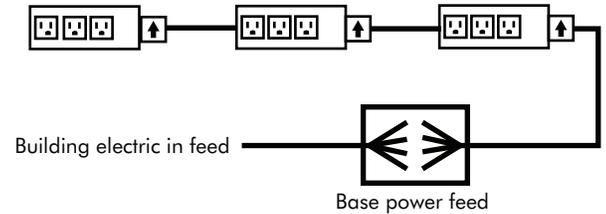

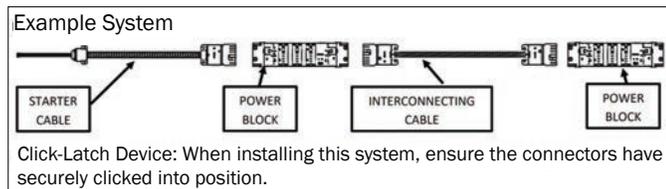

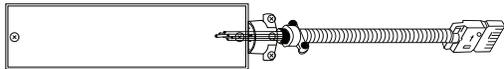

### Step 4:

Attach Worksurface to leg supports with wood screws

### FINAL CONNECTION IS DONE BY A LICENSED ELECTRICIAN

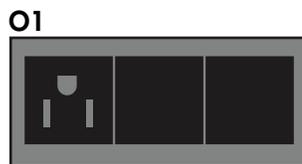

**WARNING:** Risk of fire or electric shock. As with all non-directional systems, do not electrically connect panel to more than one supply source. Always determine that the panel is electrically connected to one and only one source of supply. Before using any equipment, check the entire system for polarity, continuity, and grounding integrity.

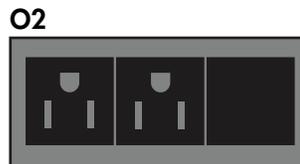

**Power Supply Connection**  
The Power System is an eight wire system consisting of four individual circuits rated at 20 amps/120 volts maximum. Circuit 1 (black), circuit 2 (red), and circuit 4 (pink), are served by a system neutral (white) and an equipment ground (green). Circuit 3 (blue) uses an isolated neutral (gray), and an isolated ground (green/yellow). The system may be supplied by a three phase power system with four individual circuits rated 20 amps/120 volts maximum, or as permitted by local code.

**When connecting electric pass throughs to power moduls, please make sure ARROW is up**

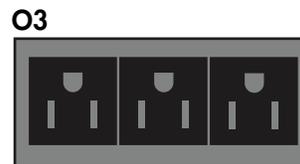

### Outlet Layout Options

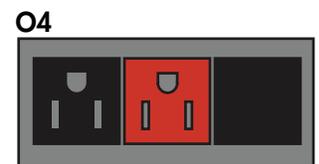

OUTLET - BLANK - BLANK
